

Future Leaders Scholarship Application

Application Deadline: February 1, 2024 for 2024-2026 Scholarship

Important Note: This is a copy of the Future Leaders Scholarship application. An [online application](#) is required. Saving as a draft of the online application is not an option. Students applying should be prepared to submit the full application all at once.

The Association of State Floodplain Managers (ASFPM) Foundation Future Leaders Scholarship is up to \$20,000 per year for two years available to a student entering their junior year in a 4-year undergraduate degree program or entering the last two years of a 5-year or dual degree undergraduate program, and studying in a field related to floods and flood management. The funds are for undergraduate work only. The funds will pay the recipient's college or university directly for any tuition costs which exceed any existing financial aid or scholarships up to \$20,000 per year. Funds remaining after tuition payment may be used for other educational expenses, room and board in a college dormitory, or an equivalent stipend if living off campus.

The ASFPM Foundation Future Leaders Scholarship has been established to provide financial support, mentoring and professional opportunities to undergraduate students who will grow to advance the vision of the ASFPM Foundation. The ASFPM Foundation's vision focuses on reducing the risk and impacts of floods on people and communities.

The Future Leaders Scholarship is intended to support the undergraduate academic career of a deserving student, studying in areas such as engineering, planning, and biological, earth and social sciences, interested in a career field related to reducing the risk and impacts of floods on people and communities. Addressing floods and flood risk includes the fields of floodplain management, watershed management and coastal management, and incorporates climate change, the environment, and urban and land management issues. Professionals working in the field include people in the public and private sectors and who are scientists, engineers, planners, and researchers.

The ASFPM Foundation has established eligibility criteria for the Future Leaders Scholarship, and along with a demonstration of financial need, the student must be pursuing a course of study related to the vision of the ASFPM Foundation. After graduation the student must plan to work in a profession that focuses on reducing the risk and impacts of floods on people and communities.

The Future Leaders Scholarship page at asfpmfoundation.org includes information on the purpose, duration, what the Scholarship includes, and selection criteria.

Application and Selection Process:

- Applicants must complete an online application.
