

Practitioner's perspective

What we do:

Plan

Regulate

Operate & maintain

Design

Build

**What do you need
to enable you to
comply with intent
of E.O. 13690?**

A standard

- Need common, consistent standard across agencies (26%)
“Give us a one-handed climatologist...”

Adjustments I can use now

- Need adjustments to current methods (16%)
- Need adjustments to precipitation DDF guidance (22%)
- Need more models and data for DYI (20%)

Guidance for my case

- Need regional specificity (34%)
- Need science at watershed size and time scale of km² and hours (22%)

Information about uncertainty

- Need to understand
uncertainty about estimates
(34%)

Updates

- Need periodic updates [but not as frequently as iPhone updates] (14%)
- Need to maintain funding for updating (6%)
- Need to re-assess time horizon for planning and design (12%)

Communication

- Climate researchers, practitioners, and agencies need to communicate and share data, knowledge, info (16%)
- Practitioners need to re-assess our options for design adaptability (6%)
